Building and Maintenance Support

SSD Building Services.

Why?

Due to the unique way, the SS Dental division grew we found that the customer couldn't manage the projects and / or find the best route to success for finding reliable contractors and stitching the tasks together to get a result they were not only happy with but cost effective so to this end the building business was borne from the customers' requests.

Who?

The business was set up with the same Quality and drive that the others have, delivering projects on time and without recalls and snags using only the best systems and products to give you a lasting result.

How?

We collaborate with Select companies, and tradesmen who have been vetted by us to meet our quality standard. By building our relationships with the leaders in their fields we can offer the skills and expertise to deliver building solutions that exceed expectations, whilst ensuring budgets and time scales are met. Our understanding of the medical and dental sector enable us to take on the Management of the projects enabling you to concentrate on your Patients, safe in the knowledge it will be done right.

Medi9

From the hospital environment we bring Quality products to the Dental Market! Better products and better prices!

- Medi9 kills Ebola, Norovirus, C.diff, MRSA & 99.9% of all germs and viruses.
- Alcohol, Triclosan and chlorine free and comes in a complete range from personal body wipes to whole room, ward and vehicle sanitisation solutions.
- Medi9 can be used by dentists, surgeries, therapists, prisons, frontline troops, veterinary clinics, police, lifeguards, paramedics...
- Medi9 is constantly undergoing independent tests against existing and emerging infectious organisms to provide you and your staff with the confidence that our product delivers total protection against infection.

Buy any products from the Medi9 Range today and receive 20% off! (See open day price lists provided)

Mini Hand Foam

Medi9 alcohol and chlorine free mini hand foam provides rapid, long lasting disinfection and biological cleanliness to busy hands on the move. The mini hand foam is ideally designed for pockets, briefcases, handbags, gloveboxes, backpacks, and office drawers

Surface Wipes

Medi9 large surface wipes provide up to 200 applications of long lasting germ protection to surfaces. The ready to use no water formulation provides easy, instant germ protection to surfaces any time, any place, anywhere.

Dispenser

Our unique, durable, and attractive dispenser range includes manual and automatic dispensers that are easily operational and fitted with a locking mechanism to prevent unauthorized access to the contents

Spill Kit

Medi9 Superabsorb Spill Kits are suitable for a variety of spills including body fluids and other biohazards.

Legionella Risk Assessments For Dental Practices

Free Log Book with all LRA's!

What is Legionnaires disease? Legionnaires' disease is a serious lung infection caused by Legionella bacteria. Initial symptoms usually include flu-like symptoms such as; mild headaches, muscle pain, high temperature, chills, tiredness, change to your mental state such as confusion.

Do I need a Legionella risk assessment? Yes, all UK dental premises need a Legionella risk assessment. In the UK, all dental premises are required to have a written scheme and a Legionella risk assessment for controlling any identified risks in accordance with the Health & Safety Executives Approved Code of Practice and Guidance document.

Legionella Risk Assessment £249

- A complete Legionella Risk assessment carried out on site, consisting of:
- On site Survey
- Production of schematic Drawings of hot and cold storage systems within the building
- Production of site Log books.
- Written Risk Assessment
- Recommendations for remedial Works
- Recommendations for Management and Training
- Written Scheme including the Control Scheme for correct & Safe system operation.

Ensuring you comply with all the legal requirements associated with Legionella Control.

Special Gold Service Monthly Management

We offer a monthly site visit, where one of our qualified engineers will attend site and complete the Monthly checks, temperature measurements, TRV tests, shower head disinfecting etc. including the completion of on-site logbooks, ensuring you comply with the monthly record keeping aspects highlighted within the Legionella risk assessment and written scheme of actions and control measures.

Gold Service for just £36.00 per month including Travel to you premises!

Commercial Flooring

We supply and fit Vinyl floors in both clinical and general areas of your practice.

- In line with the latest guidelines.
- Non-slip welded seam vinyl
- Cove formed up stands to ensure an easily cleaned and maintained hard floor solution. Ideal for Clinical areas with the durability to give many years' service.

Hygienic vinyl flooring can be used to enhance the aesthetics of your practice, with a wide range of colours, sizes and styles that replicate natural materials with out there draw backs vinyl tiles contribute to a cleaner, healthier environment from the day they are installed

We can provide commercial flooring from most of the major manufacturers such as Gerflor®, Polyflor® and Karndean® fitted by professionals to our exacting standards.

Commercial Gas Safety Certificates

£65.00 + Travel

An annual gas safety inspection is one of the safety checks required by law since 1996. Gas safety checks are your guarantee that your property is safe and that your Clients are not being put at any unnecessary risk. Our Plumbing and Heating Engineers are fully qualified and Gas Safe registered to perform gas safety checks and cover The South West. Upon completion of a gas safety inspection, you will receive the standard CP12 certificate to declare your gas appliances safe and fit for purpose or be informed of any defect or potential issues

Central Heating Systems and Boiler Servicing

£99.00 + Travel

Our Gas Safe Registered Engineers will carry out a detailed service of your boiler and spot potential issues that could cause problems in the future and inform you of them or give your boiler a clean bill of health. SSD Building Services recommend regular servicing of your central heating boiler and here are some of the reasons why:

- Maintaining and servicing your central heating boiler regularly can help maintain the efficiency of the heating system of your property and avoid higher than needed energy bills.
- A yearly boiler service can prevent and reduce the chances of unnecessary breakdowns and will increase the life of your boiler.

We all know Carbon monoxide (CO) emissions can be dangerous we always check for carbon monoxide emissions and detect if there are any leaks.

Bespoke Cabinetry

Kabinets

Range of Surgery Cabinets from Kabinets.

SSD Group, found that our clients were asking us if we could provide more than just the dental equipment. They asked us for cabinets and seamless work tops. Using our connections with other local businesses we have built up our own range of cabinetry specifically for the dental market. We also work closely with the DuPont® Quality Network approved Corian Fabricator to produce seamless Corian worktops. This has enabled us to offer a premium product for a competitive price, as we say 'There is always room for Kabinets' Since we manufacture our units to order we are able to offer a bespoke cabinet to meet even the most difficult of briefs. Send us your ideas, a drawing or even a sketch on the back of an envelope and we will be able to design, build and deliver it to you.

Today we can offer you a 15% Discount off List Price on all Kabinets dental cabinetry.
